

DUE DATE: OCTOBER 12, 2011

Geometry Website Portfolio

Go to www.weebly.com and create an account

The name of your site should be www.lastname_first_initial_geometry.weebly.com

Create a home page – Geometry Semester 1 Portfolio

Describe the purpose of the portfolio

Create a page for each Card Marking

Card marking 1: Discuss the following

- In this unit I was suppose to learn: (Outline the key objectives)

- The concepts I mastered are:
 - Provide proof that you have mastered these concepts must have at least 4 and be able to explain them with examples that are not taken from your book.

 - You must also be able to apply to a real life example to one or more of the concepts

- Chapter 1 Lines, Points, & Plane – How do you know that you have mastered this concept? How can you apply this concept to real life?

- What do you still have difficulty understanding in this unit? How do you plan to better understand this concept?

- For your next test, establish a goal for your grade. List what you plan to achieve this goal for the next test.

- For each card marking you will create a similar page.

Be detailed and be sure that anyone who is not in the class would be able to understand what you learned and how to apply the information to real life. You will be graded on presentation, creativity, accuracy of content, and your ability to explain. **DO NOT Plagiarize** content should not be copied from the internet nor your textbook. This portfolio should reflect your own words and understanding.

Your website will be 20 points and counts as a test grade. The due date for the 1st card marking is October 12, 2011.
